AUTOMOBILE CLUB OPENS CAMPAIGN

New Headquarters With W. D. Rishel as Secretary Out After Membership.

GOOD ROADS AS THE SLOGAN

Movement to Secure Better Highways, Enact Legislation, Give Tours and Otherwise Work for Betterment.

With an aim to better the conditions in the automobile industry both for business and pleasure, the Automobile club of Utah has inaugurated a campaign to secure the enrollment of every dealer and automobile owner in the state of Utah. William D. Rishel, the well known sporting man, has taken hold of the publicity end of the campaign and as acting secretary has set a high mark of 1,500 mem-

berships before the season is over. Offices have been opened in 301 First building, and every day a crowd of enthusiastic automobile dealers and owners stroll into the well-lighted and neat offices and talk automobile shop.

The campaign will commence in earnest on the first of June and will be kept up until some life is injected into the club. Behind the campaign is a movement to secure good roads, enact proper legislation, give tours, encourage runs and hill climbing contests and speed events. Literature is being sent broadcast over the state to the automobile owners informing them of the purpose of the club. A small initiation fee will be charged and does, but the expense will be charged to that everybody who enters the club can receive the benefits of the club.

The Automobile club of Utah is a member of the national association, and will come under the touring and contest rules of the organization. The club will adopt the methods of the national association in posting roads, using the same signs.

SIGNS OF THE TIMES.

The most vital work which the club is going to take up is the posting of road conditions in Utah. A special investigation of the roads will be made in various counties from time to time and an effort will be made to start a permanent road system throughout Utah. A car will be sent out over the roads, routing them and choosing the shortest and best highways from point to point. This means a lot of hard work, but the club intends to accomplish what has been done in other states. These welcome road signs show the traveler who uses the road where to go and in what direction to go, and makes touring a pleasure.

In connection with this work each member of the club will be furnished with postal cards on which blanks have been printed to report dangerous places on roads where repairs ought to be done. With all this information at hand, the club will get out maps showing valuable information about road conditions, trips, etc., which is of inestimable value to the automobilists.

WORK FOR GOOD ROADS.

The construction of roads will be taken up with the county commissioners in the various counties and the club will work in conjunction with the good roads commission. The state legislature will be asked for an appropriation for good roads and an effort will be made to start a system which will be state wide. The result of the campaign made by the automobile club of southern

With two teams in the championship series to be played off at Wandamere Park on Friday, June 3, the Lincoln school has established a record in district school athletics. The base ball team and girls' basketball team won every game of the series in which they played. The teams are still practicing and expect to carry off the championship at the field day meet.

The baseball team meets the Training school baseball team in the final game. In the sub-finals the Lincoln school team defeated the Training school by a score of 9 to 3. The Lincolns also beat the Training school in the first general series.

The girls' basketball team is pitted against the Wasatch girls in the deciding game. During the series the Lincoln girls defeated the Wasatch girls by a score of 9 to 8. Miss Caroline Burrows, captain of the Salt Lake High school basketball team coached the Lincoln girls and made a winning team of them.

California, can be seen. Los Angeles county voted a bond issue of \$3,500,000 for good roads and the money is now being spent and a system of beautiful, permanent roads being built. New York is the leading state that is expending a lot of money on road improvement work. Nearly 500 miles of new macadamized highway is being built every year, and the total amount now in existence is about 2,400. There are about 30,000 miles of public highways in the state.

The club will begin its campaign in Salt Lake and then branch out in every part of the state. At a recent meeting of the club the following officers were elected: Charles A. Quigley, president; Joseph Geoghegan, vice president; J. E. Jennings, secretary and treasurer; J. F. Dunn, George T. Dell, E. J. Humphrey of Ogden; E. P. Bacon, Logan; M. S. Browning, Ogden, and Dr. Geo. E. Robinson of Provo, directors.

RECEPTION PLANNED FOR PLUCKY CHAUFFEURS

When Miss Blanche Stuart Scott of Rochester, N. Y., who has undertaken a drive of 5,000 miles across the country in an Overland without the help of a mere man, reaches Salt Lake next month she will be given a reception. S. B. Young, Jr., sales manager of the Consolidated Wagon & Machine company, agents for the Overland, is making plans to meet the plucky little woman in Ogden when she comes down the canyon and escort her into Salt Lake. She will probably remain here for a couple of days before journeying on westward. Miss Scott is more daring than any other woman who has attempted a similar trip for she is accompanied by a single companion, Miss Amy L. Phillips. She will sleep in the car except in cities and will also prepare her meals and wherever she stops, taken on the road. Miss Scott has made complete preparations for her trip and has been provided for every conceivable emergency.

The plucky chauffeur will follow the regular tourist route from Albany to Buffalo, then by way of Chicago to Omaha and on west. Miss Scott will depend upon her own resources for repairs, repairs and supplies. The strongest argument against her successful accomplishment of the trip to San Francisco seems to be the fact that she is a woman. Every day she sends a dispatch of her whereabouts and the number of miles traveled. Miss Scott is not trying to break any records or climb the steepest grades. She is simply taking a tour across the country for pleasure and to demonstrate what she can do with her machine.

During the week the Consolidated Wagon & Machine company reported the following sales: J. H. Knighton, Valle; Salt Lake Transfer company, Overland; J. W. Lewis, Overland; James Ingebrethsen, Overland; Joseph Miller, Overland; N. A. Williams, Overland; T. H. Crajer, Overland; Ernest Wright, Valle; Glen La Rue, Overland; C. M. Conklin, Overland, and G. H. Atwood, Franklin.

Cleveland, O., May 28.—President Dan Johnson of the American league is in the city and expects to hold a conference today with John Mitchell, former head of the United Mine Workers and a number of local labor leaders with the object of putting an end to the boycott of the Cleveland American league team.

It is said both sides are willing to make some concessions and Johnson says he expects to have the affair smoothed over before the Memorial day double header. The trouble started over the construction of the club's new grand stands.

SINCLAIR KNOCKS OUT HARDEN IN NINTH

While Helpless and Staggering, Crowd Yells for "Peanuts" to Finish His Job.

Ogden, May 28.—Peanuts Sinclair had Frankie Harden bleeding at the nose and mouth and staggering helplessly about the ring trying to protect himself with his hands in the ninth when with an uppercut and a left hook to the jaw he went down and out. While Sinclair was beating a helpless man to the ground the crowd which filled the Ogden Opera House yelled and cheered the Salt Lake fighter on. From the fifth round to the end Sinclair was able to land on his opponent any time he pleased.

Harden appeared nervous when he entered the ring and fought wild for the first three rounds before he settled down. In the seventh round, Sinclair floored Harden with a hard blow to the jaw. He took the count and recovered in time to rush Sinclair off his feet until the going was too rough for him. Sinclair finished his job in the ninth to suit the fight fans. Tom Painter of Evanston refereed the fight.

Eddie Mathewson, a brother of Harden, knocked out Kid Davis in the first round of a four-round bout. Young Forbes and Mickle Sullivan fought a four-round draw.

The Salt Lake fans went to Ogden on a special train. The attendance was small and poor management was shown in the confusion which followed the scaling of the crowd at the ring side. The managers were severely criticised by many of those present.

JEFFRIES NEEDS HARD TRAINING FOR FIGHT

James J. Corbett Will Adopt Style to Meet Jack Johnson's Tactics.

San Francisco, May 28.—Although James J. Corbett, according to his own declaration, has not come to California to take charge of Jim Jeffries' training, it is generally believed the plans of the former champion for a revision of the big fellow's work will be adopted and that "gentleman Jim" will yield great influence hereafter in the regulation of the Ben Leonard program.

Corbett has some decided views as to the style of training Jeffries should follow in preparing for his fight with Johnson. He says he has thoroughly analyzed Johnson's methods and that it is highly essential for Jeffries to school himself to a form of fighting best adapted to meet the negro's tactics.

"And," he said to the newspaper men last night, "it's fighting and not boxing that Jeffries requires from now on. I'm going to warn him that fighting is what he'll get from me. When I see him training for my fight with him I'll be there. I hired Gus Rubin at \$50 a week and we would have ourselves in a 12-foot ring and pummel each other all around the ropes. That is the kind of work Jeffries should have and then run away with it."

Of the several thousand fans that cheered Jeffries at his boxing exhibition last night no one enjoyed Jeffries' good showing more than Corbett. Corbett and Johnson are not on good terms and the former is anxious to have Jeffries whip the black. Regarding Johnson's reputation statement that he would like to have Corbett face him in his training quarters. Corbett said: "I have a proposition to make to show what a big man I am. I hereby defy him to bet that I am afraid to come to his quarters; if he accepts that challenge, I will beat him where and whenever he pleases."
